

News Letter November 2009

Hello Members

This is your newsletter for November 2009 as many of you are aware we have trying hard to find a new field to fly from and we have been looking at a few that were on offer.

The first three we were looking at did not meet our standards. Finally the last one that is located at Birdston Rd Milton of Campsie is the best we will ever get.

The committee had a meeting this month regarding this new site and it was agreed that we should get a costing for to develop this land for a flying site for us. We have made several proposals and are going to put them to the landowner once we have that done then we will know exactly at the AGM if we are going to move

If the majority says we move then we will keep the Queensveiw site for another year till the new site is ready

What we intend to do is at the AGM in December take it to the members to have their view on what we should do. If the majority says we should move then so be it.

This new field will need developed and when it is finished it will be drive your car to the car park take your plane out and walk about 20mts to fly We will still keep the old field going till the new one is developed to fly from

What we are proposing at the AGM is that every member pays a one of joining fee of forty five pounds and that we put the membership up five pounds. This will apply to every member new and old that joins the club in the future to assist in the new site we have and the money will go to develop the new site for us.

If anyone has any proposals to make at the AGM then they had better let the secretary know within the next 14 days so that this could be put on the agenda

This is the shortest news letter I have made since I took up the post and I was happy to do this job this year. I have enjoyed myself and it has been fun so I'm afraid it's time for me to move on and look to the future and this job as news editor will be up for grabs to anyone that wants to do it next year. So I wish the new news editor all the best and good luck
